Honda Marine - the widest 4-stroke range in the world!

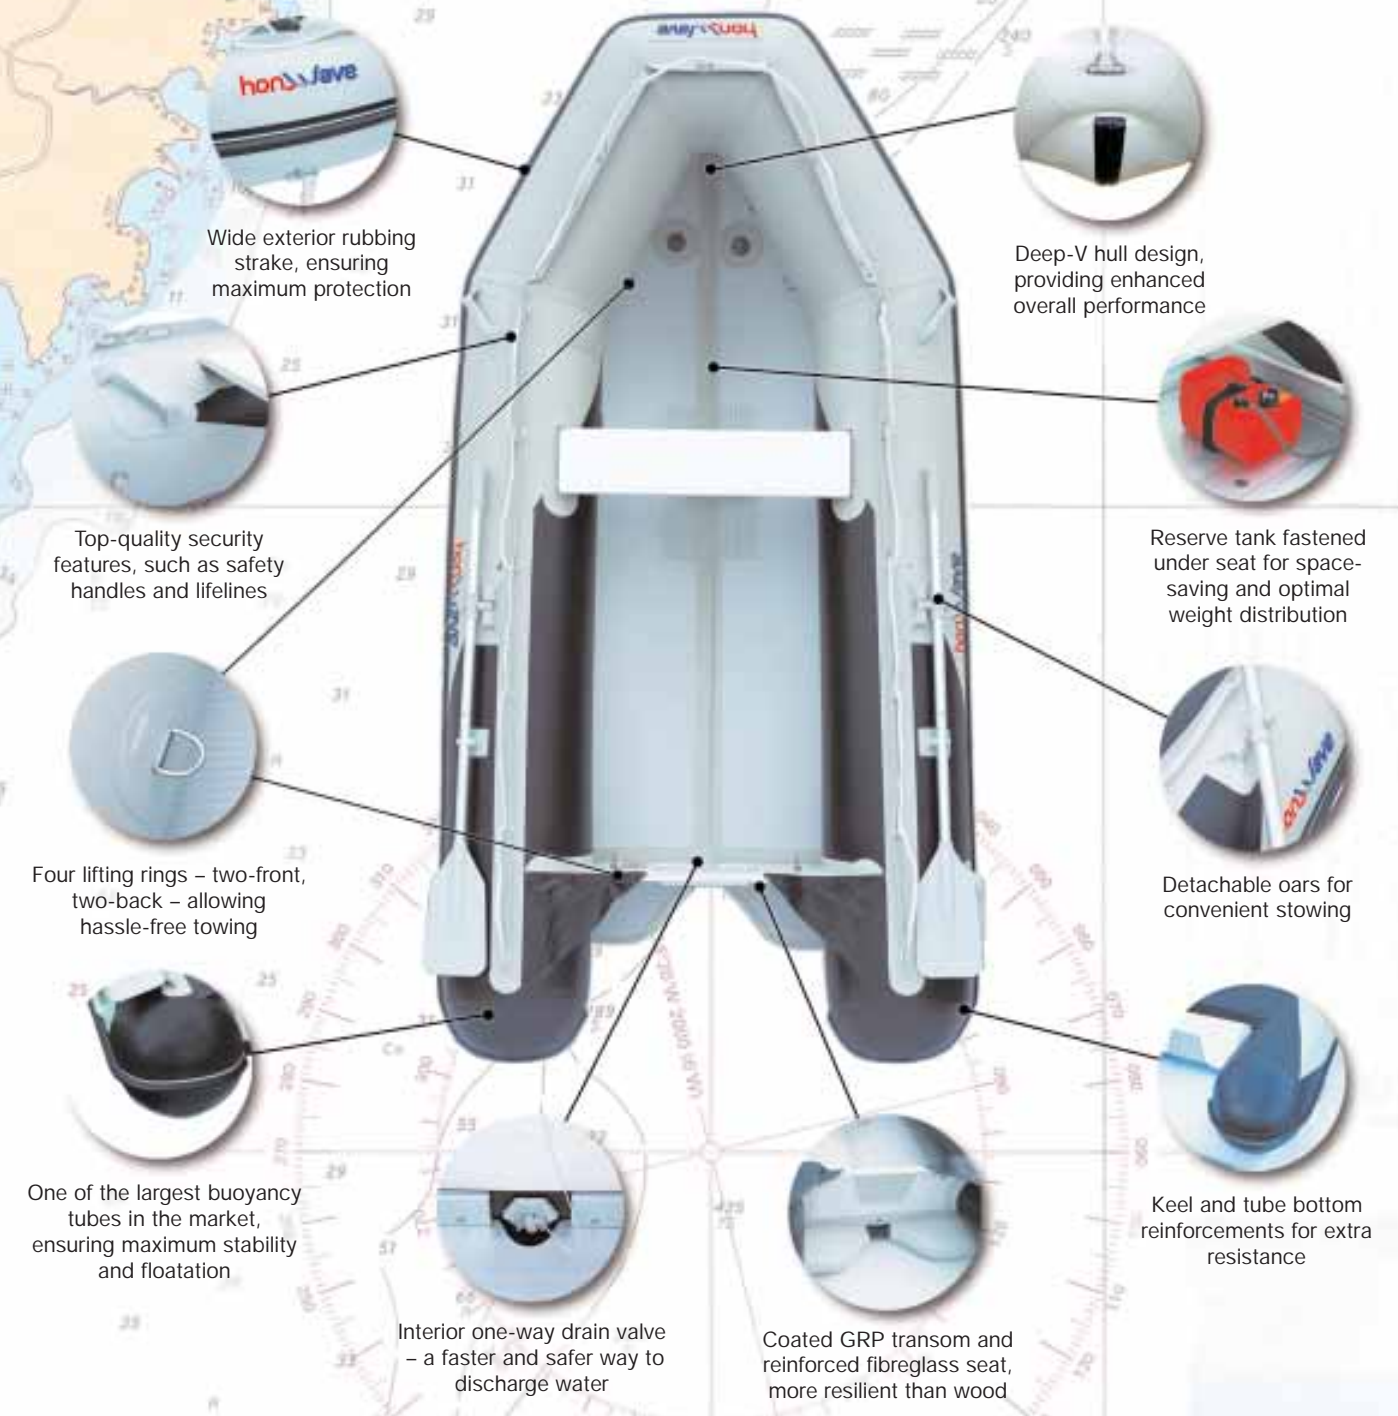

Making big waves on water and off!

The world's leading engine, vehicle and power equipment manufacturer for over 50 years, Honda is still moving full-speed ahead of the competition. Our engines have raced to over 600 Motorcycle Grand Prix victories, and five consecutive Formula One world titles. And our research and development programmes are achieving major breakthroughs, from ASIMO, the world's most humanlike robot, to the successful test-flight of our first ultra-efficient high-speed jet.

Today, Honda brings that same award-winning innovation to your nautical needs, offering you a wide variety of inflatable boats that are fun, reliable and very easy to transport. Whether you're fishing, diving or just relaxing in the great wide open, Honda gives you exciting new ways to make a splash!

The Honda Marine checklist If you've got all these, then you've got a Honda...

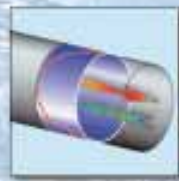

Innovation with only the finest elements

Tubes laid and sealed by hand for maximum resistance and durability

Rugged double-layer PVC fabric with ultra-resistant interior (D-Tex 1100g/m²)

Diaphragm to regulate air pressure throughout various chambers

Advanced double-lock valve for fast and easy inflation and deflation

Inflatable V-shape in built 2 piece air mat floor, durable, maintenance-free and much lighter than wood, plastic or GRP, combining maximum buoyancy with rigidity

The Honda Marine guarantee
Our commitment to you is as solid as our products. That's why each Honda Marine inflatable boat is backed by a two-year limited warranty for all parts and labour.

Standard Features and Equipment...

Fibreglass seat

Air pressure gauge

Foot pump & Repair kit

Transport bag (2 for larger aluminium-deck models)

Options : seat bag, bow bag, boat cover

Honda Marine aluminium-deck inflatables

Geared-up and ready for a challenge!

For sea enthusiasts that take fun seriously! Honda's aluminium-deck inflatables are the ideal watercraft for just about any nautical activity and any sea condition. Rugged and ready to go, their extra-large buoyancy tubes guarantee smooth cruising every time. The floor slats are number coded for hassle-free assembly, and the smaller models can be stored in a single bag. So you can take them anywhere!

• 2.5 m
• 3 m

The Honda Marine advantage (2.5m and 3.0m hulls)...

- Easy to assemble and take apart
- Fits easily into a single bag
- Durable 2 piece coated aluminium main floor, lighter and longer lasting than wood
- Light weight construction with inflatable keel
- Large 43mm tube diameter gives increased buoyancy, stability and larger four-stroke hp capacity

• 3.5 m
• 4 m

The Honda Marine advantage (3.5m and 4.0m hulls)...

- Spacious and robust
- Interior safety grab handles
- Numbered floor slats for easy assembly
- Durable 3 piece coated aluminium main floor, lighter and longer lasting than wood
- Light weight construction with inflatable keel
- Large 45mm and 49mm tube diameter gives increased buoyancy, stability and larger four-stroke hp capacity

Honda Marine slatted-deck inflatables

Safe and easy-to-use tenders the perfect boating partners!

Compact and ultra-light, Honda's slatted-deck inflatables are perfect for tender excursions, fishing trips or simply for cruising pleasure. With the largest buoyancy tube diameter in the market, they ensure superior flotation and stability. What's more, folding and storing can be accomplished by a single person in just minutes-less time than it takes you to dry off!

The Honda Marine advantage...

- Compact design, 2 or 2.5 metres in length
- Ultra light & easy to transport
- Can be folded in just minutes with little effort
- Large tube diameter gives increased buoyancy, stability and higher four-stroke hp capacity

Honda Marine air V-floor inflatables

A revolutionary floor for a truly moving performance!

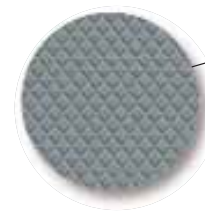

Light and fast, these inflatables are packed with comfort and performance features. Their vibration-dampening floors help smooth out the roughest rides. Their deep-V hull design significantly optimises keel performance and ensures maximum stability at virtually any speed. The hull design incorporates extended rear inflated floor trim pads, for effortless directional agility, responsive helm balance and increased buoyancy allowing higher four-stroke hp capacity.

- 2.7 m

- 3.2 m
- 3.8 m

Shark Skin
Honda's new shark skin material gives enhanced performance and increased stability (T38-IE1 only).

The Honda Marine advantage...

- As rigid as a traditional floor, inflatable to an unsurpassed 0.8 bars
- Revolutionary V hull design for optimum keel performance just like a RIB hull
- Can be folded in just minutes with little effort
- Ultra light and easy to transport
- Additional buoyancy at the transom allows up to 20hp capacity
- Ultra light weight with rigidity
- Large tube diameter gives increased buoyancy and stability
